

Hidrocarburos de Euskadi

Grupo EVE

FIRST ANNOUNCEMENT OF TENDERING PROCESS FOR SHE-2012-008 (SHESA'S WEB)

The Sociedad de Hidrocarburos de Euskadi (SHESA) has planned to acquire a 60-km 2-D Vibroseis seismic survey consisting of 4 lines. The work includes obtaining permits for the survey from landowners and local and provincial administrations, the data acquisition itself and the processing of the data collected.

The work will take place in the Provinces of Bizkaia and Alava.

Contracting process: Negotiated with previous announcement of tendering.

Companies interested in presenting an offer to supply this group of services should communicate their interest in writing before 14:00 (Central European Time) on 28 August 2012 to the following address: shesa@eve.es.

Upon receiving said communication of interest, all necessary documentation for the preparation and presentation of offers, including General Contracting Conditions and Technical Specifications, will be sent to the interested Company.

This announcement was submitted to the DOUE (Official Journal of the European Union) on 02/08/2012.
